Material

Top - Thermally-fused under heat and pressure to create a solid, fully-cured surface. All phenolic top finishes are moisture, heat and chemical resistant (passes SEFA 8) and have UV stabilizers for exterior applications.

Base - One-piece, rotationally molded, specially formulated, high-impact polyethylene with ultraviolet light stabilizers (to reduce fading). The commercial-grade polyethylene material is also FDA-approved, making it ideal for restaurants, food courts and entertainment facilities. Chemically resistant to bleach, salt solution and chlorine solution. Premium TruColor™ material is fully compounded for superior color and quality assurance. Enhanced UV resistant formulation suitable for both indoor and outdoor use.
