At Tonik®, we design durable, American-made furniture that pushes boundaries, connects people and sets the scene for life's best moments.

We work with the best and brightest designers to bring you modern furniture that is as functional as it is fashionable, in colors that are UV-resistant, easy to clean and built to last. Oh, and some of these pieces even light up. So take a seat, order a drink and enjoy. Life is more fun with a splash of Tonik®.

A vibrant outdoor seating area featuring a variety of colorful, modern plastic furniture. In the foreground, there's a bright orange armchair, a white circular table, and a blue armchair. To the left, a pink armchair with a patterned cushion sits next to a white bucket-like stool. Further back, yellow and pink armchairs are visible. Large patio umbrellas in orange, yellow, and red provide shade. The ground is covered with a dark, patterned material. In the background, there are green plants, a brick wall, and a view of a city street with parked cars and trees.

GOBY®

Goby® is a voluptuously designed collection of furniture with bold curves that hints at high-end pop art when used on funky roof top bars and in amusement parks. But the series can just as easily aid in creating more elegantly spirited areas in hotel lobbies and resorts.

The Goby® Seating Series is defined by its swaying design lines and optional two-tone version that make this a fashionable and versatile furniture option.

# OCEAN BOUND PLASTICS

There are untold amounts of plastic on a journey through our waterways on their way to the ocean as we speak. The trash heading to the sea is an unfortunate reality that we all know and understand, especially at Tonik®, where we create highly durable polymer furniture.

Tonik® chooses polymers for furniture manufacturing due to their highly durable characteristics. These same characteristics prevent single-use consumer goods from deteriorating, even in the world's oceans. At Tonik®, we're focusing on re-routing plastics on their journey towards the sea by giving them a new life in Tonik® Furniture with our recycled colors in the Serenity Palette.
